

Unifyline (Doxofylline)

Tablets 400mg &
Syrup 100mg/5ml

یونی فائلین
(ڈوکسوفائلین)

Each tablet contains:

Doxofylline (Platinum Specs.).....400mg
Product Complies Platinum Specs.

Each 5 ml contains:

Doxofylline (Platinum Specs.).....100mg
Product Complies Platinum Specs.

Indications:

Doxofylline is indicated for the treatment of bronchial asthma and pulmonary disease with spastic bronchial component.

Dosage:

Tablets: Elderly Patients: 1/2 tablet two or three times daily.

Adults: 1 tablet two or three times daily or as prescribed by the physician.

Syrup: Elderly Patients: 10ml (2 teaspoonful), two or three times daily.

Children greater than 12 years old: 10ml (2 teaspoonful), two or three times daily.

Children less than 12 years old: 6 – 9 mg/kg twice daily or as directed by the physician.

Contraindications:

This product is contraindicated in individuals who have shown hypersensitivity to its components. It is also contraindicated in patients with acute myocardial infarction, hypotension and in lactating women.

Undesirable Effects:

After xanthine administration, nausea, vomiting, epigastric pain, cephalagia, irritability, insomnia, tachycardia, extrasystole, tachypnea, and occasionally hyperglycemia and albuminuria, may occur, if a potential oral overdose is established, the patient may present with severe arrhythmias and seizure; these symptoms could be the first sign of an intoxication. Adverse reactions may cause the withdrawal from treatment; a lower dose rechallenge may start only after the advice of physician.

Special Precautions:

The half-life of xanthine derivatives is influenced by a number of known variables. It may be prolonged in patients with liver disease. In patients with congestive heart failure, in those affected with chronic obstructive lung disease or concomitant infection, and in those patients taking certain other drugs (erythromycin, troleandomycin, lincomycin, and other antibiotics of the same group, allopurinol, cimetidine, propranolol, and anti-flu vaccine). In these cases, a lower dose of Doxofylline may be needed. Phenytoin, other anti-convulsants and smoking may cause an increase in clearance with a shorter mean half-life; in these cases higher doses of Doxofylline may be needed. Use with cautions in patients with hypoxemia, hyperthyroidism, liver disease, renal disease, in those with history of peptic ulcer and in elderly.

Frequently, patients with congestive heart failure have markedly prolonged drug serum levels following discontinuation of the drug.

Use in Pregnancy and Lactation:

Animal reproduction studies indicated that Doxofylline does not cause fetal harm when administered to pregnant animals nor can affect reproduction capacity. However, since there is limited experience in humans during pregnancy, xanthines should be given to a pregnant woman only if clearly needed. Doxofylline is contraindicated in nursing mothers.

Drug Interaction and Others:

Doxofylline should not be administered together with other xanthine derivatives, including beverages and foods containing caffeine. Toxic synergism with ephedrine has been documented for xanthines.

Concomitant therapy with erythromycin, troleandomycin, lincomycin, clindamycin, allopurinol, cimetidine, propranolol and anti-flu vaccine may decrease the hepatic clearance of xanthines causing an increase in blood levels.

Presentation:

Unifyline 400mg tablets in blister pack of 20's.

Unifyline 100mg/5ml syrup in 60ml plastic bottle.

Unifyline 100mg/5ml syrup in 120ml plastic bottle.

* Detail information is available on request.

Dosage: As directed by physician.

To be dispensed on the prescription of a

registered medical practitioner only

Store below 30°C in a dry place. Protected from light

Keep out of the reach of children.

Keep bottle tightly closed.

نوٹ: ڈاکٹر کی ہدایت کے مطابق استعمال کریں۔

صرف رجسٹرڈ ڈاکٹر کے نسخے پر ہی فروخت کریں۔

دوا کو 30°C سے کم درجہ حرارت پر روشنی سے بچا کر خشک جگہ پر رکھیں۔

بچوں کی پہنچ سے دور رکھیں۔

دھماکنے کو بھری طرح بند رکھیں۔

Note: Product contains lactose.

نوٹ: پرائی فائلین لکٹوز میں گھولنا مشال ہے۔
